

# Release Notes for WinRecs Version 2026.01

Release Date: March 19, 2026

The 2026.01 Fiscal Release includes 2026 Updated CIHI tables, fixes for reported issues as well as enhancements.

This release is cumulative only after the most recent WinRecs Update has been applied however the update must be applied on minimal version **2025.01** or greater.

## Important:

For those sites with CMG and CACS Groupers, the 2026.0 Release contains a Grouper Engine update. Fiscal 2026 DAD and NACRS Level 2/3 abstracts must be batch grouped prior to submitting 2026 Period 01 files to CIHI. A warning message indicating “No Grouper value...” will display should the record not be grouped with the current grouper year.

Clients must send Facility Information files prior to submitting 2026 visits and must be on WinRecs version 2026.01 to create the 2026 Facility Information Files.

For additional information on this, or previous releases, contact MED2020 Customer Support at <mailto:support@med2020.ca>.

## Ticket Details

## **WinRecs3\Modules\Clinical**

### **PR\_27299 Add scroll bar to Field Definition window pane**

A vertical scrollbar has been added to the Field Definition window pane, allowing longer definitions to be viewed.

## **WinRecs3\Modules\Abstracting**

### **PR\_27334 3M Bridge New Tags 2026**

Added support for new fields to be exchanged. These include admit category, discharge disposition, blood transfusion indicator. In addition, the institution from value will be sent with the HCINSTID field tag when institution type = 8.

## **WinRecs3\Modules\Abstracting\[CCM] Cancer Care Module**

### **PR\_27344 2026 Cancer Care Changes**

2026 Cancer Care changes are included in this update.

## **WinRecs3\Modules\Chart Maintenance\[CPI] Central Patient Index**

### **PR\_27375 Last Visit Date in CPI not auto populating value**

The Last Visit Date field in CPI will now auto populate based off the latest visit date for that chart number.

## **WinRecs3\Reporting\Views**

### **PR\_27408 Not All Intervention Codes displaying with Intervention Replication Views**

WinRecs was not purging intervention replications after the abstract was purged from WinRecs database which resulted in a mismatch when comparing intervention replicate views vs intervention views. A code has been added to now purge orphan intervention replications when the abstract has been purged.

### **PR\_27484 CompleteDate\_R2b missing in MDS20\_FULL\_Assessment\_6\_Form\_VR**

CompleteDate\_R2b has been added to the MDS20\_FULL\_Assessment\_6\_Form\_VR.

### **PR\_27518 Update IRRS Views**

The following three views have been modified to change column name:

View IRRS\_ByName\_VR:

ChartNumber\_A5c\_iA5d => CaseRecordNumber\_A5c\_iA5d

CaseRecordNumber => FromInstitutionCaseRecordNumber

View IRRS\_ByElementID\_VR:

A5c\_iA5d\_ChartNumber => A5c\_iA5d\_CaseRecordNumber

CaseRecordNumber => FromInstitutionCaseRecordNumber

View IRRS\_ByICode\_VR:

iA5d\_A5c\_ChartNumber => iA5d\_A5c\_CaseRecordNumber

CaseRecordNumber => FromInstitutionCaseRecordNumber

### **WinRecs3\Modules\Clinical\[NRS] National Rehabilitation Reporting System**

**PR\_27439 NRS Admissions/Discharges-unable to change Diagnostic Health Condition Type to a W**

The Diagnostic Health Condition Type in the NRS Health Characteristics:Diagnostic multiform could not be changed to a W. This has been corrected, and the field can now be changed.

### **WinRecs3\Maintenance\Lookup Code Maintenance**

**PR\_27471 Fiscal 2026 DAD Institutions and Types V1.2 Feb 2026 and Fiscal 2025 DAD Institutions and Types V1.12 Feb 2026**

Fiscal 2026 DAD Institutions and Types V1.2 Feb 2026 and Fiscal 2025 DAD Institutions and Types V1.12 Feb 2026 update is included in this release.

### **WinRecs3\Maintenance\Project Maintenance**

**PR\_27474 Project 380 - Updated Description for Look Up Value "C"**

NACRS and DAD Project 380 Look up Description "C" has been updated.

### **WinRecs3\Modules\Abstracting\[NACRS] Level 3 AmCare Ambulatory**

**PR\_27475 Abstract Profile Names Not Appearing in Copy Abstract Profile - NACRS**

For NACRS Level 3, the Copy Abstract Profile window in Abstract Auto Coding now displays the **ProfileName** column as expected.

**PR\_27482 L3 Not validating Until Save**

The following two issues were reported on versions 2025.04 and 2025.05:

1) For Level 1 submitted records, when loading level 3 visits with errors, the visit status indicator box shows solid green and the incomplete L3 visits were not returning in reports or displaying in the Abstract Queue.

2) When opening an L1 Submitted Record in the L3 module and saving the record the following prompt was displaying:

**This will set the file correction status to pending. Do you wish to continue?**

These two issues have been resolved in this release.

**PR\_27487 Visit Disposition value getting removed after using 3M code finder to input diagnoses and intervention codes**

The Visit Disposition field value will no longer get cleared if the Visit Disposition code from 3M Code Finder is an invalid CIHI value.

### **WinRecs3\Modules\Abstracting\[DAD] AbsCare Inpatient**

#### **PR\_27488 Discharge Disposition value getting removed after using 3M code finder to input diagnoses and intervention codes**

The Discharge Disposition value will no longer get cleared if the Discharge Disposition code from 3M Code Finder is an invalid CIHI value.

### **WinRecs3\Modules\Clinical\[MHRS] Mental Health Registry System**

#### **PR\_27491 OMHRS - Section R: Medications - No Edits**

When the medication record was populated and if fields were left blank or the DIN number was wrong there was no edit. This has been fixed.

### **WinRecs3\Modules\Clinical\[IRRS] Integrated interRAI Reporting System**

#### **PR\_27496 IRRS Field Size Display in Footer for R2 and N1**

The field size display in the assessment footer has been corrected for N1 and R2 fields

#### **PR\_27506 IRRS Submission History Viewer add Discharge Type to Discharge Assessment and Tracking column**

FR/RT/RG have been added to the end of the description for discharge and tracking.

#### **PR\_27508 Add Visit Date to Submission History Viewer**

Visit Date (assessment date) column has been added to the Submission History Viewer. Nursing Unit/Area dropdown box and the Coder Number dropdown box have also been added to Submission History Viewer.

#### **PR\_27513 IRRS: Add option in User Profile to limit access for IRRS submissions**

A new option has been added to the User Profile called "Show Submit Message". If left unchecked the user will no longer get prompted with the following upon saving IRRS assessment:

**"Is this record ready to send for submission?"**

#### **PR\_27529 IRRS Diagnosis Code Age Filtering**

Diagnosis codes with age restrictions were not recognized in IRRS. Age check has been added for ICD10 codes for IRRS.

### **WinRecs3\Tools\File Management\NACRS**

#### **PR\_27522 Saving NACRS Level 1 Correction in Level 3 Module - Not flagging as Level 1 Correction**

It was reported that when a submitted NACRS Level 1 was opened in the Level 3 module and a correction was made, the level 1 correction was not being flagged. (Level 3

Submission has not been run yet). This has now been fixed.
